**Note:** For security reasons, it's recommended you don't use it for private family photos. The website states it deletes files after an hour, but uploading anything should always be approached cautiously.

1. Via your web browser, go to <https://heic2jpeg.com>

2. Select **Upload Files**, then choose the file you want to convert.

A screenshot of a website titled "Heic to JPEG conversion website". The page is mostly blank with a light gray background. The title is at the top left, and there is a small icon of a document with a checkmark next to it. The rest of the page is empty.

3. Wait for the file to finish converting.

## Why Convert HEIC Files to JPG

If HEIC files are better than JPG files, why convert them?

Compatibility is a big part of the reason here. Not all image editing software is compatible with HEIC files (including [Adobe Photoshop](#)) and it's far easier to manipulate JPG files.
