

Simple Syrup

Ingredients

- Sugar, as needed 🛒
- Water, as needed
- Glucose syrup, as needed 🛒

Equipment

Digital scale 🛒

Timing

10 minutes

Yield

150 g of syrup

75 g Water
75 g Sugar 🛒

One-to-one simple syrup

Combine sugar and water in a pot, and bring to a boil. Cool syrup in an ice bath. Store refrigerated.

50 g Water
100 g Sugar 🛒

Two-to-one simple syrup

Combine sugar and water in a pot, and bring to a boil. Cool syrup in an ice bath. Store at room temperature.

50 g Water
75 g Sugar 🛒
25 g Glucose syrup 🛒

Non-crystallizing simple syrup

Combine sugar, glucose syrup, and water in a pot, and bring to a boil. Cool syrup in an ice bath. Store at room temperature.

Note: The glucose syrup (you can also use corn syrup) replaces some of the sucrose sugar in this recipe to help prevent the crystallization that causes a grainy syrup.
