MagBicarb 32 OZ Bottle

\$80.00

Regular Bottle ▾

Quantity

1

Add to cart

Makes up to 32 gallons.

MagBicarb is a concentrated solution of **magnesium** bound to **bicarbonates** useful in enhancing the actions of both in our deficient bodies. Used as a daily drinking water when mixed with distilled water it brings the benefits of increased levels to all, each part working in synergy with the other.

A single bottle makes between 8-32 gallons depending on dosage required, for 1 person it will last between a month at the highest dosage and four months at the maintenance dosage giving a cost of between 50 cents up to just over \$2 a gallon for multi buys.

For best value sign up for Auto-ship, [click here!](#)

The price per bottle is \$80 but if you buy 3 bottles or more the price becomes \$68 per bottle. So three bottles would cost \$204 saving \$36.

Enter the code at the end of the check-out: **MULTIDISC**
