

ENVIROTEC

PRODUCT CATEGORY
STABILIZED BROMINE
PRODUCTS

Bromide Plus is produced using a novel process that both eliminates bromate ion formation and also reduces the creation of inert salts to keep conductivity low in the receiving water.

BROMIDE PLUS

PERACETIC ACID PRODUCTS

Peracetic acid is an ideal antimicrobial agent due to its high oxidizing potential. It is highly effective against a broad range of microorganisms.

STABILIZED BROMINE PRODUCTS

BromMax is produced using a novel process that both eliminates bromate ion formation and also reduces the creation of free salts to keep conductivity low in the receiving water.
