- **Highest concentration of Amygdalin (B17) available.**
- **Extracted only from bitter apricot kernels (seed content).**

***Each capsule contains 500 mg of real Amygdalin (Vitamin B17)***

-----

MAKE SURE YOU KNOW WHAT YOU ARE BUYING.

Many sellers are NOW offering ground up apricot kernels and put them in capsules and called it REAL AMYGDALIN, they may say they have 500MG or more of AMYGDALIN, but really it has only about 20mg or less per capsule.

Raw bitter apricot kernels are great, but better eaten fresh and not in a capsule. Each bitter apricot kernel contains about 10mg of Amygdalin.

Our 500mg Vitamin B17 (Amygdalin) Capsules are just that, 500mg and nothing else.

-----

### **What is Vitamin B-17?**

Amygdalin, often referred to as Vitamin B17, is a naturally occurring molecule found in over 1200 different foods, including the seeds, of many kinds of fruits, such as apricots, plums, cherries, oranges, nectarines, apples and peaches, as well as many raw nuts.

### **Why is B17 Important?**

We believe that a balanced diet is essential to a healthy life. Few of us consume enough vitamins and minerals from the foods we eat. Nutritional supplements become necessary for optimal body function. B17 is just one of the many nutrients our body needs.

### **About Our Product?**

Our Amygdalin supplement is extracted from bitter raw apricot kernels. Our supplement is not just mere ground up apricot kernels, but the actual Amygdalin substance which is over 98% pure.

### **Suggested Use:**

As a dietary supplement take 1-3 capsules per day with a meal, unless otherwise instructed. Do not take more than one at a time.

### **Supplement Facts**

Serving Size 1 Capsule - Servings Per Container 100
