

This is my progress on finasteride, minoxidil, and Nizoral after 2.5 years (I'm 25). I got on all three around the same time after reading Rawtashk's sticky and seeing how much success he had with the big three. Before getting on them, I was steadily and rapidly losing hair for about 2 years starting when I was 20/21, primarily around the front of my hairline with extremely thin hairs. I noticed a slight bald spot starting to happen on my crown but it wasn't as bad as the hairline. I really noticed how much I had lost after taking a picture for my work ID, about a
