

ST55

CLASS-A FET CONDENSER MICROPHONE

OVERVIEW

The Sterling ST55 professional recording microphone raises the standard for acoustic capture of vocals and instruments. Based on an ultra-thin 3-micron gold-evaporated Mylar® diaphragm, the Sterling ST55 also features a Disk Resonator™ that naturally extends high frequency response. Combined with Class-A FET circuitry, the ST55 provides incredible smoothness, detail and articulation for your recordings.

FEATURES

- Cardioid Polar Pattern
- Large 1" all brass capsule, hand assembled and oven baked for longterm stable operation
- Ultra-thin 3-micron gold-evaporated Mylar® diaphragm provides sonic detail and accuracy
- Disk Resonator™ design extends high-frequencies naturally
- Custom-wound nickel core output transformer
- High-pass filter and -10dB pad
- Black nickel-plated all brass body
- Stainless steel head and grille assembly
