Iodex®, Regular, 1 ounce jar  
*Anti-Infective*

- Used for Minor cuts and wounds
- Prevents Infections
- Promotes Healing of Cuts and Wounds
- Inhibits Growth of Any Bacteria
- Does Not Contribute to Antibiotic Resistance
- Made in U.S.A.

As long as this salve remains in contact with body tissues in minor cuts, wounds and abrasions, the iodine gradually separates from the molecule of the carrier and inhibits the growth and action of bacteria and promotes healing. This product has been available since 1910.

**Suggested Usage:** Apply and rub until color disappears. If area is too tender, apply freely and cover with a light loose bandage.

**Customers' Experiences:**

*"I am sixty-five years young and Iodex has been a remedy in my family as long as I can remember. Recommended by my mother (who is now ninety-three) for everything from healing a cut, wound, burn and making the pigment return (we are black Americans). I recall her sending me to the drug store to buy a new little bottle and being curious about it as a boy in New York City. As time passed, the pharmacist would half to whip-out a special book to find and order it and many had never heard of it! It is too bad most do not carry it anymore... Bravo!" - N.B., Charleston, SC*

"I have used Iodex for 25 years. The Regular Iodex is wonderful for clearing up scrapes and bruises. The Iodex with Methyl Salicylate has been wonderful for my wonky knee. It has reduced the swelling and relieved me of the pain. It has been amazing. Thank you so much." - C.J., Carmichael, CA

"Iodex is a mainstay in my medicine chest, as well as, in the medicine chest of every member of our family (including, by choice, the 20-40 year old 'kids'). It's our 'go to'. I am 60, and this product has been in use in our family for at least 4 generations now. As a kid, it was called 'black magic' in our household. Obviously, black for the color, and magic for how magically it worked. Every sore throat that anyone in our family has ever had, was treated with Aspirin, then Iodex lightly rubbed on our throats followed by a warm towel wraps. (old towels, as it does stain). No one ever held a sore throat for more than 3 days. Also used on bug bites, skin scrapes/scratches, skinned knees, minor skin infections and bruises. There was a time where Iodex was hard to find and had to special order through a pharmacy. Making it more difficult, the pharmacists weren't aware of the product, making it even harder to come by. We are so happy to find that Baar carries Iodex. Thank you!" - C.S.H., Aurora, CO

"My grandfather Lieutenant Colonel E.H.L. DVM U.S Cavalry, was assigned to Fort Bliss, TX in 1909-1913. At this time, he was introduced to Iodex. After his military career ended, he opened his own Veterinarian practice in Burlingame, Kansas. He used Iodex in his practice and when he passed away and his business was sold, there were a large quantity of half dollar size aluminum containers of Iodex. That Iodex supply served my family well for many years. The last I saw was in my mother's house when she passed away in 2007. I just bought my first jar on the internet for \$20.00. I thought I would try it on these awful Oak mites we suddenly have in the Midwest. It seemed to help a little. Yours truly" - E.H.L. (retired teacher)

"I am so happy that my daughter remembered using Iodex from her childhood. I used it as a child, and have always found it to give amazing results. She found it online and we purchased it... We are so happy to find Iodex again!" - D.R., Mineral Wells, TX

"I've been using Iodex for years. I grew up in Australia and we had Iodex for bruises and for broken skin... I am so happy to have it again. Thank you." - E.C., Davis, CA

"I recently had knee replacement surgery and was bruised very badly around my ankle and calf of my leg. I immediately went to my 20 year old container of Iodex. I had very little left in it. I used it all over my calf and ankle, and no longer had bruising on it. I also had some blood marks under the skin on my forearms. Not sure why and where they came from, but have had them for months. After ordering a new jar of Iodex, I have been putting it on my arms and have almost remove all of them. I am only 70 years old and my Mother used this on us as kids when we got bruised... I remember getting bruised easily and I would have a large bruise with a hard knot in the center. Iodex would reduce the soreness from it within days." - L.D., Valrico, FL

"Growing up, Dad always had a jar around and instructed me to use it for the many cuts I received as a growing boy. He learned to use it from his dad and I'm now teaching my daughter how to use it when she gets a cut. Still the best product on the market." - A.L., Lake Oswego, OR

"I have been using Iodex for over 60 years. I started using it in the 10th grade of high school, and I'm 78 years old and have 4 children that I got through sports with it. I have informed people in Michigan and people in Florida how helpful this product is for muscle problems and how to obtain the product. I ask people to ask a druggist to order it... We ordered two bottles as we always like to have one extra. We have even have given partial jars to friends so they can try it and find the benefit of it. GREAT, GREAT, GREAT PRODUCT." - L.J.B.

"I was introduced to Iodex Salve growing up on a farm. When I became an adult, I have always made sure I kept a supply handy. My supply had been on hand so long that the top rusted away. I have finally got around to ordering a new jar, even though the old supply seemed to be working well. I consider Iodex the 'go-to-treatment' for those situations that do not seem to respond to other treatments. I wished it was more conveniently available through my local pharmacies... It is a great product!" - H.D., Decatur, GA

"Cat scratches, and cuts - [Iodex's] the perfect thing. My dad, a chemist, taught me to use Iodine... Thank you for your thoughtfulness!" - Susan Lendvay, Venture Inward Editor, and A.R.E. Member & A.R.E. Staff Member for over 35 years.

"I have been using Iodex for over 55 years. I have raised 4 children and this product was always close at hand. It is amazing for any kind of cut, scratch, rash, anything I'd use an antibiotic for, I substituted Iodex and it ALWAYS worked. I was introduced to this product from the Edgar Cayce readings. When my daughter-in-law called and said she had an infection from her earrings and nothing worked to clear it, I asked her why she didn't use the Iodex. She said the other stuff didn't work and she doubted that would work. I told her to try it. That's why I gave it to her. She did, it did, and now she reaches for it often for the family. The problem is getting folks to believe it works the way it does. Everyone believes the pharmaceuticals are the only answer, but there are so many old products that are really effective but big pharm. is making it difficult for them to stay on the market... Hopefully as people can't afford to buy drugs they will look for natural alternatives. They are out there. Thank you for still making a wonderful product, I had an easier time raising my kids because you do." - P.A.P.

#### Cayce Quotes:

(Q)What causes the small lump between the end of my spine and rectum, and what can be done to eliminate it?

(A)This massaged with a small quantity of Iodex once or twice a week will be removed. This is produced by a thickening of the tissue that received in times back an injury. With the massage it will be absorbed and eliminated from the system. Best that this be done night and morning; small quantity." Cayce

**Ingredients:** 4.7% Iodine, Petrolatum, Oleic Acid, Paraffin.

#### Warnings:

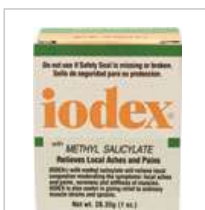

For external use only. Ask doctor before use if you have deep or puncture wounds, animal bites or serious burns. When using this product, do not apply to large areas of the body; do not use tight or air-excluding bandage; do not get into eyes or mucous membranes. Stop use and ask doctor if: the redness, irritation, swelling or pain persists or gets worse; an infection occurs; the condition does not improve within 7 days. Keep out of reach of children. In case of accidental ingestion, seek professional assistance, or contact a poison control center immediately.
