“Hidden Research” Reveals How To Naturally Balance Blood Sugar Levels For Good

Hi, my name is David Pearson...

I'm a medical researcher with over 27 years of experience, studying every diabetic condition under the sun...

And in the 7 minutes, I'm going to “bite the hand” that has fed me my whole career...

Spit in the face of the big pharmaceutical companies charging hundreds or even thousands of dollars for overpriced type II diabetes treatments that never cure a damn thing...

Reveal devastating and dangerous secrets the medical industry is terrified you'll find out...

And reveal to you an astonishing and completely natural way to get perfect blood sugar levels in just days...

All without insulin or deadly prescription drugs and without doing anything more “strenuous” than eating your favorite dinner...

No matter HOW BAD your blood sugar levels are now...

And no matter what's “wrong” with you or how hopeless you've been told it is...

In fact, if you do what I say in this short video, just like 460,000 men and women all over the world have done before you...

You'll find yourself grinning ear to ear like a lovestruck teenager...

As you throw your TEST Strips and glucose monitor in the trash...

Suddenly enjoying all the mouthwatering foods you had to avoid like the plague before...

Saving hundreds or even thousands of dollars you've been wasting on test strips and overpriced medication...

Enjoying perfectly balanced blood sugar levels for the rest of your life...

Leaving your family and even your doctor absolutely gods smacked wondering how you turned back the clock on your type II diabetes...

Who the heck am I to make such a huge promise?

Like I said, my name is David Pearson...

I'm a 58-year-old medical researcher...

Or a former one, anyway...

Now I'm the crooked medical industry's enemy #1...

Because over the last 4 years I've stopped sucking at the teat of the abusive medical industry...

Cut deeply into the \$245 BILLION profits of the dangerous pharmaceutical industry...

Who spend millions every year suppressing just how often their "safe" techniques...

Leave innocent men and women in agonizing pain with severe complications or even dead...

The REAL statistics should be enough to make you swear to never, ever take a prescription drug again...

I know, because I've helped over 460,000 men and women ranging from 12 to 93 get balanced blood sugar levels...

WITHOUT Insulin, Metformin or other drugs in a way so simple you'll be ANGRY it's been hidden from you for so long...

And now I want you to know the truth too...

How you've been lied too, again and again by doctors, pharmaceutical companies and even the media...

About the REAL reason your blood sugar has gotten WORSE year after year after year...

Forcing you to raise your prescription again and again until you feel the devastating side effects all over your body...

And how INSANELY easy it is to restore perfect blood sugar levels absolutely naturally, so you can eat anything you want even if you're eating like a rabbit now...

No matter how long you've been diabetic...

I'm going to reveal exactly how you too can get perfect blood sugar in just days using this simple breakthrough...

So listen carefully, because the information in this video is life changing...

It will allow you to experience a dramatic improvement in your health...

And completely alleviate your symptoms, so you no longer suffer from blurred vision, neuropathy, fatigue or low energy

All while burning unwanted body fat and eliminating blood sugar issues for good...

The reason this breakthrough is able to provide so many dramatic benefits is because it targets the TRUE, HIDDEN root cause of high blood sugar and that's a fatty liver...

Let me repeat that because it's important...

Because most of the time people are talking to you about the pancreas, not the liver as the cause...

You probably haven't heard about fatty liver syndrome as it relates to high blood sugar...

But as we'll prove, it's actually the liver, not the pancreas, that's causing your blood sugar to destabilize...

And if you're feeling like less than yourself recently, if you're fatigued or you are tired of pricking your finger every day...

If your feet hurt, you feel achy or sore and your vision is blurred or any of this...

For you, solving the fatty liver problem is going to be the elixir of life...

How do I know?...

Because it's now been proven over and over again in countless studies and thousands of people...

It's just been hidden from you, until now...

So let me share this research with you...

The first discovery was made at the prestigious Newcastle University in England...

This is where a team of researchers, led by Dr. Roy Taylor finally confirmed after decades of research...

That the liver is the true cause of type II diabetes...

How did Professor Roy Taylor prove this?...

He did it by analyzing the livers of diabetics using ultrasound equipment...

Just look at the results from his study...

[Show ULTRASOUND before and after]

What he found was truly shocking, so keep watching ...

On the left, is an ultrasound taken before the treatment started...

Normally, in a healthy patient, you would only see an outline of the liver...

But since this organ is so clogged up with fat in those with type II diabetes...

The liver appears solid white...

A baseline was taken of their blood sugar levels...

As expected, they were sky high...

On the right you can see the results after the treatment...

You can clearly see that it DID indeed clean out the fat from their liver...

Which is why it's no longer filled in white...

What was unexpected was what happened to their blood sugar levels...

I'll let the study speak for itself...

The study states it's results in five words:

“NORMAL INSULIN SENSITIVITY IS RESTORED”

Those words should make your heart sing...

This was completely revolutionary!

According to the study, all you need to do, is clear out a little bit of fat from your liver and you'll no longer suffer from the curse of type II diabetes...

And I'll show you exactly how to do this in just a few minutes...

But first, I want to quickly break down how this works...

Dr. Taylor calls it his Twin Cycle Theory...

Because there are twin causes of your type II diabetes...

1. First, excess fat in the liver
2. And second, excess fat in the blood...

Let me explain...

In non-diabetics, the liver works day and night to maintain healthy blood chemistry...

This includes clearing excess fat in the blood after we eat...

It's important to keep blood lipids (or fat) levels low...

Unfortunately for people with type II diabetes, their liver can get clogged with fat...

And once your liver gets backed up, blood lipid (or fat) levels begin to raise...

This excess fat coats the cells making it difficult for glucose to get in...

[Show diagrams]

So even though your blood sugar is high, your cells are starved for energy, that's why many diabetics feel tired all the time...

High blood sugar can be dangerous, so your body does everything it can to lower it...

And releases more insulin...

But that doesn't help, because of the fat coating your cells...

Fat is the real cause of "Insulin resistance" ...

And there you have it...

You now understand the true cause of type II diabetes...

How can we be sure?...

Because Dr. Taylor continued his research and published his findings in the Journal of Diabetes Care...

Which is the official medical journal of the American Diabetes Association...

In it, Professor Taylor made it clear that Type II Diabetes can be quickly and easily reversed without dangerous prescription drugs...

In Dr. Taylor's own words, he said...

"It will be helpful for all individuals with newly diagnosed Type II Diabetes to know that they have a metabolic syndrome that is reversible. They should know that if it's not reversed, the consequences for future health and cost of life insurance are dire"

<https://care.diabetesjournals.org/content/36/4/1047>

Isn't that remarkable?

One of the world's foremost experts on Diabetes telling us that not only can type II Diabetes be reversed, but that it's easy to reverse it...

And that reversing it is way cheaper and safer than medical industry wants you to know...

But don't expect to see this in the mainstream media...

They are too busy running ads for the pharmaceutical companies...

Who are making billions selling you test strips, drugs and health insurance...

That's why they want to shut me down...

And that's why it's crucial you get this information today...

Dr. Taylor's research is just too important...

His research, clinical trials and findings are indisputable...

In fact, in 2017 Dr. Taylor's research was verified again using the largest study of its kind...

A double-blind clinical trial, the gold standard in medicine...

And it proved definitively, that Dr. Taylor's Twin Cycle Theory was correct...

The results, reported by a top science publication stated that:

"The good news for people with Type II Diabetes is that our work shows that even if you have had the condition for 10 years, you are likely to be able to reverse it by moving that all important, tiny amount of fat out of your liver."

That's it! Just a "tiny amount of fat" is all you need to remove from your liver...

About 1-2 grams...

And sugar levels go back into balance almost magically...

In addition, the findings also confirm that many patients' blood sugar levels normalized within the first week...

Yes, you read that right...

You can see results in as little as 7 days...

So how do we get rid of the "little bit of liver fat" that's behind all our out-of-whack sugar problems?...

By God's grace...

Earth provides certain herbs, roots, plants and minerals...that are specifically designed to shed the fat...particularly the fat in your liver...

If we put them all together, just wait and see what happens...

And right now I want to show you the herbs I'm talking about...

The ones that allow your health to make a remarkable and rapid comeback while practically melting away the fat that's in your liver...

And other problem areas while significantly reducing your risk of all forms of disease...

All of them backed by hard science from Top Universities and leading research centers...

Here are all 11 miracle herbs...

So that you can see exactly why this is so revolutionary...

Breakthrough Ingredient #1: Solomon's Seal

According to herbal lore...

Solomon's Seal got its name when King Solomon placed his seal upon the plant after discovering its health-supporting powers...

Amazingly, its root even resembles the Star of David, hence the name Solomon's Seal.

It's been used in Eastern Medicine for thousands of years...

And while scientists have known about Solomon's Seal's amazing healing properties for centuries...

It was only in 1930 that Hedwig Langecker - a rogue scientist hiding from the Nazis during world war II - discovered this herb's amazing effects on supporting blood sugar...

A discovery she immediately attributed to the herb's ability to clear liver fat.

In fact, there are over 200 scientific studies showing its amazing ability to fight erratic glucose and shed excess liver fat...

And every month that number is going up.

Before long, I'm positive Solomon's Seal will be a household name...

And when you look at the incredible science behind this powerful ingredient...

It's easy to see why...

Solomon Seal Is Shown In Studies To Support A Marked Improvement In Insulin Within 4 Hours Of Taking The First Dose!¹

In a model of blood sugar support in animals...

Subjects given Solomon Seal saw significant impact in blood sugar support, in just 4 hours after taking it.²

More staggeringly...

In studies on human cells over 12 months, Solomon Seal was also found to enhance antibody production and support the immune system³too.

The reason why Solomon Seal is so effective is because it targets 'Fat Deposits' in the liver, clearing them out to restore normal insulin sensitivity⁴

Now, I know we often hear how "this-or-that" ingredient is good for us...

But it's actually very rare for an ingredient to be scientifically proven to support blood sugar in so many studies, and be traced right back to the days of King Solomon.

Solomon's Seal is one of those rare exceptions...

But it's just one of ELEVEN head-turning start ingredients you'll learn about today...

Breakthrough Ingredient #2: Shepherd's Purse

This is another amazing plant that's been used for centuries to support insulin levels, and maintain sugar levels in the body.

It's loaded with free radical fighting nutrients that not only...

- Helps support the healthy functioning of the pancreas.
- Clears excess liver fat.
- Allows more of the food you eat to be turned into energy, instead of being stored as body fat.⁵
- Boosts the immune system - and is even shown to help the body to break down antibiotic-resistant, super-bacteria like anthrax to⁶.

Incredible, right?

If you just took these two amazing ingredients alone, they could help transform your body and health in a matter of weeks.

Yet they're not the only impressive ingredients found to balance blood sugar levels quickly...

Breakthrough Ingredient #3: Lycium Berry

This glucose supporting wonder-plant first caught my attention in 2015...

When a group of scientists conducted an experiment on 67 patients with erratic blood sugar.

⁶ "Anti-Inflammatory and Anti-Superbacterial Properties of ... - NCBI." 13 Feb. 2014, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3951821/>. Accessed 27 Jul. 2020.

The doctors conducted a randomized, double-blind study. The gold standard in medical testing. And each day, after dinner these people were given Lycium Berry for a period of 3 months. The results astounded the medical community...

Because on average, patients' blood sugar levels were improved by 51%.

And insulin production improved 345%!⁸

Why is Lycium so effective?

Scientists believe it's because it clears out a fatty liver...

Which has been proven in multiple, peer-reviewed studies...

Including this one, where they found that Lycium...

"Possesses a potential novel treatment in preventing diet-induced fatty liver"...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4071778/>

So obviously, the less liver fat we have, the easier it is to keep our sugar levels healthy. And the quicker it is to lose weight.

So Are You Starting to See What Makes these herbs So Unique?

- ✓ All of them help your body to clear out excess liver fat, while supporting insulin production and healthy blood sugar
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4071778/>
- ✓ All of them are supported by 100's of clinical trials and irrefutable science
- ✓ And all of these ingredients INCREASE calorie burning, so you have the opportunity to lose weight, gain more energy, and feel better too.

It's the ultimate 1-2-3 knockout punch...

Now...

Even if you stopped there, and just starting taking these 3 ingredients, it would STILL be one of the most potent, effective, guaranteed ways to optimize sugar levels...

But as I mentioned before, I'm not just trying to lower your blood sugar levels a few points...

I want to make sure your high blood sugar levels are a thing of the past...

That's why there's 8 MORE proven glucose supporting plants to protect you from every possible angle...

Including...

Bellflower Root

Which contains Platycodin, a plant-based nutrient that supports blood sugar by blocking carb absorption in the intestines⁹. And suppresses weight gain by boosting glucose metabolism.

This ingredient was recently featured in The Journal of Nutritional Biochemistry, where doctors tested it on patients and found it supported both glucose and cholesterol levels significantly within 30 minutes after taking the first dose

And according to a 2012 study from the Food Research Institute...

Bellflower Root "decreased triacylglycerol (FAT) storage in the liver, which was associated with improved insulin signaling"

Each of these ingredients are so good they should be front page news...

And when combined, they work synergistically to unclog your fatty liver and balance blood sugar levels in just days...

Listen...You can go out and try to get these ingredients yourself...

But I can tell you from experience, having searched for suppliers over the last 2 years...

That finding the specific herbs used in these studies is extremely difficult...

And very expensive because because to get the absolute best results using this cocktail, they need to be ultra-grade in their most bioavailable form...

And mixed together with the perfect dose of each ingredient for maximum results...

Fortunately, getting access to this kind of premium herbal supplement is now available because after more than two years in the lab...

My team and I at Natures Formulas are pleased to announce that we've created a breakthrough new formula...

Something that contains the purest and best forms of these herbs in existence...

And it's called Sugar Balance, because that's exactly what it does...

It quickly and safely balances blood sugar levels...

Each capsule contains eight hundred milligrams of the pure natural herbal blend, the exact same 11 miracle ingredients proven in scientific studies to balance blood sugar levels to normal ranges by targeting the fat in your liver...

Also, all the ingredients are in extract form, concentrating the herbs making them 100x more powerful than taking the whole leaf form...

All this comes together to make the most effective blood sugar supplement in existence...

The results speak for themselves...

And that's why it's extremely popular...

Pretty much everyone who tries Sugar Balance keeps asking for more of the stuff...

Because they never again want to worry about "blood sugar zig zags," or excessive weight gain, or having a foggy brain.

Sugar Balance is also becoming extremely popular with many in the health profession...

Which is amazing, but it puts even more strain on production...

Especially because it can take up to 3 months to custom-create each batch...

And as a result of the fact that Sugar Balance is expensive to manufacture, takes up to 3 months to produce a single batch, and keeps selling out...

I Frequently Don't Have Any Sugar Balance Available for The Public

But that being said...

I also don't want ANYONE to stay awake each night, worrying about blood sugar issues.

Which is why in the next few moments...

I'll share how you can get your hands on brand-new bottles of Sugar Balance...
And how you can try it risk-free as part of our breakthrough new Pilot Program.

But first, let me answer that other question:

How Much Sugar Balance Do You Need to Take?

That's simple...

Just take 1 capsule 3 times a day for at least 30 days.

The reason it's important that you take Sugar Balance for at least 30 days is very straightforward...

While the 11 plant-based ingredients go to work pretty much immediately...

What all of those clinical studies have shown us...

Is that the longer you take each of the ingredients inside Sugar Balance...

The more your body can benefit.

For example...

As you saw in one study...

Taking Solomon's Seal, the #1 ingredient inside Sugar Balance, people saw insulin production improve within 4 hours of taking the first dose.

But you also saw that in another major study...

Taking Solomon's Seal for a full 12 months was shown to boost the immune system and increase production of antibodies too.

Which is another important factor for those who want to live longer, healthier, more energized lives for years to come...

**So It Just Makes Sense To Keep Taking Sugar Balance
Day-After-Day and Month-After-Month...**

Especially with the astronomical prices big pharma are charging for their blood sugar support products!

For example, in 2009 the price of a 10 ml vial of Eli Lilly's Humalog insulin cost \$93...But today the same vial now costs \$275

Almost TRIPLE the price. For exactly the same product!

Isn't that criminal?

And all the other big manufacturers have hiked up their prices too!

While the most Sugar Balance costs is a few pennies per day (more on that in a second).

- ✓ And this is why so many experts are recommending that you choose at least 3 bottles of Sugar Balance at a time...
- ✓ And 6 bottles if you want to be completely safe...
- ✓ Then take it for a period of at least 90 days...

That way you can absolutely guarantee that you've done everything you can to support your blood sugar, lower your weight and keep yourself safe.

Across the U.S., people who were once worried about numb toes and fingers, amputations and blindness dizziness...

People who were finding life so hard, just to work out what to eat each day, without disrupting their sugar levels...

Are calling Sugar Balance a "Gift From God"...

And today, this is your golden opportunity to join them.

Tom Anderson who writes

"Blood sugar was 213 before I started, day was 170 and this morning was 122. Amazing results. Please feel free to use the above as a reference."

Tosin Ogunseye writes

"I am currently taking Sugar Balance as recommended and I am happy to write that the whole program is really working for me, in which my blood sugar has drastically reduced from 268mg/dL to 140mg/dL within 8 days of the program."

And Felice Boewe who writes

"I am writing to report good news. I followed the liver cleansing...I cannot believe the results is

so good and true. In a short time, my blood sugar dropped from 154 to 75. I deeply appreciate your efforts in helping type II diabetes sufferers.”

Frequently Asked Questions

1. What Is Fatty Liver and Why Is It So Important For Improving Blood Sugar?

The true cause of Type II Diabetes was first discovered in 2016 by Dr. Roy Taylor.

He was a gastric bypass surgeon who noticed that when overweight people went on a calorie restricted diet, they quickly become type II diabetes free.

He decided then decided to dedicate his career to figuring out why that worked.

Since then his twin cycle theories have been proven twice and the science is now irrefutable.

He found that to treat type II diabetes, all you need to do is get your body to shed a little bit a fat trapped in your liver.

And that's exactly what these 11 miracle herbs help you do...

Each capsule of Sugar Balance has 800mg of these life saving herbs that balance blood sugar levels no matter if you're 19 or 92...

It's hard to say.

And I know they'd love nothing more to shut me up...

And that each bottle of Sugar Balance can take up to 3 months to manufacture...

I simply cannot guarantee how long this site will remain online or we'll have bottles in stock...

Which is why if you're ready to experience the incredible benefits of Sugar Balance...

It's important that you do take action today by ordering your supply.
