

Institute for Progressive Research of RBAC Immunomodulator Compounds

The Institute for Progressive Research of RBAC Immunomodulator Compounds (iPraxic) is dedicated to disseminating educational and scientific information to the community at large on method to strengthen the immune system. Additionally, we support continued research on RBAC Immunomodulator compounds such as rice bran arabinoxylan compound (RBAC). At iPraxic, we envision a world where no one has to lose a parent, a child, a partner, a best friend, a co-worker, or a neighbor to cancer, Aids, or any other immune-related disease. We're developing a community where people take advantage of the power of nature to eradicate immune-related diseases. The ultimate goal is helping people around the world lead healthier and more enhanced lives. We invite you to use this information in good health!
